## Opal and Bandall announce exclusive distribution agreement in ANZ

Opal and Bandall are pleased to announce Opal's exclusive distribution rights for Bandall's internationally patented banding and branding packaging systems, across Australia and New Zealand.

Bandall, headquartered in Netherlands, is a world market leader in the field of bundling and banding solutions with their machines banding products in more than 100 countries.

Opal is one of Australasia's leading packaging companies, offering innovative and sustainable fibre packaging solutions to suit every customer. The new distribution rights with Bandall will offer Opal customers a total packaging solution with banding and branding.

Bandall offers stand-alone solutions scaling up to fully automatic systems backed by professional technical support which can be integrated into your production line.

Each band provides an opportunity to include branding and key product information and precise brand positioning is one of the many advantages offered through Bandall's patented technology.

### Key Product Features

- User-friendly patented feed
- Low maintenance and energy-efficient
- Band can provide a tamper evident solution
- Opportunity to reduce packaging material
