

15 February 2025

Media statement

Opal is pleased to welcome our valued Production team members back to work from Sunday 16 February 2025, after reaching an in principle agreement with them and the CFMEU today for a new Enterprise Agreement at the Maryvale Mill.

Opal negotiated in good faith for an Enterprise Agreement that is fair and appropriate to the Mill's current operations, which were forced to change significantly due to the sudden end of wood supply from Victorian Government owned VicForests.

Opal is focussed on the future of the Mill, which remains an important asset for our growth as a major manufacturer of quality cardboard packaging products in a competitive market.
